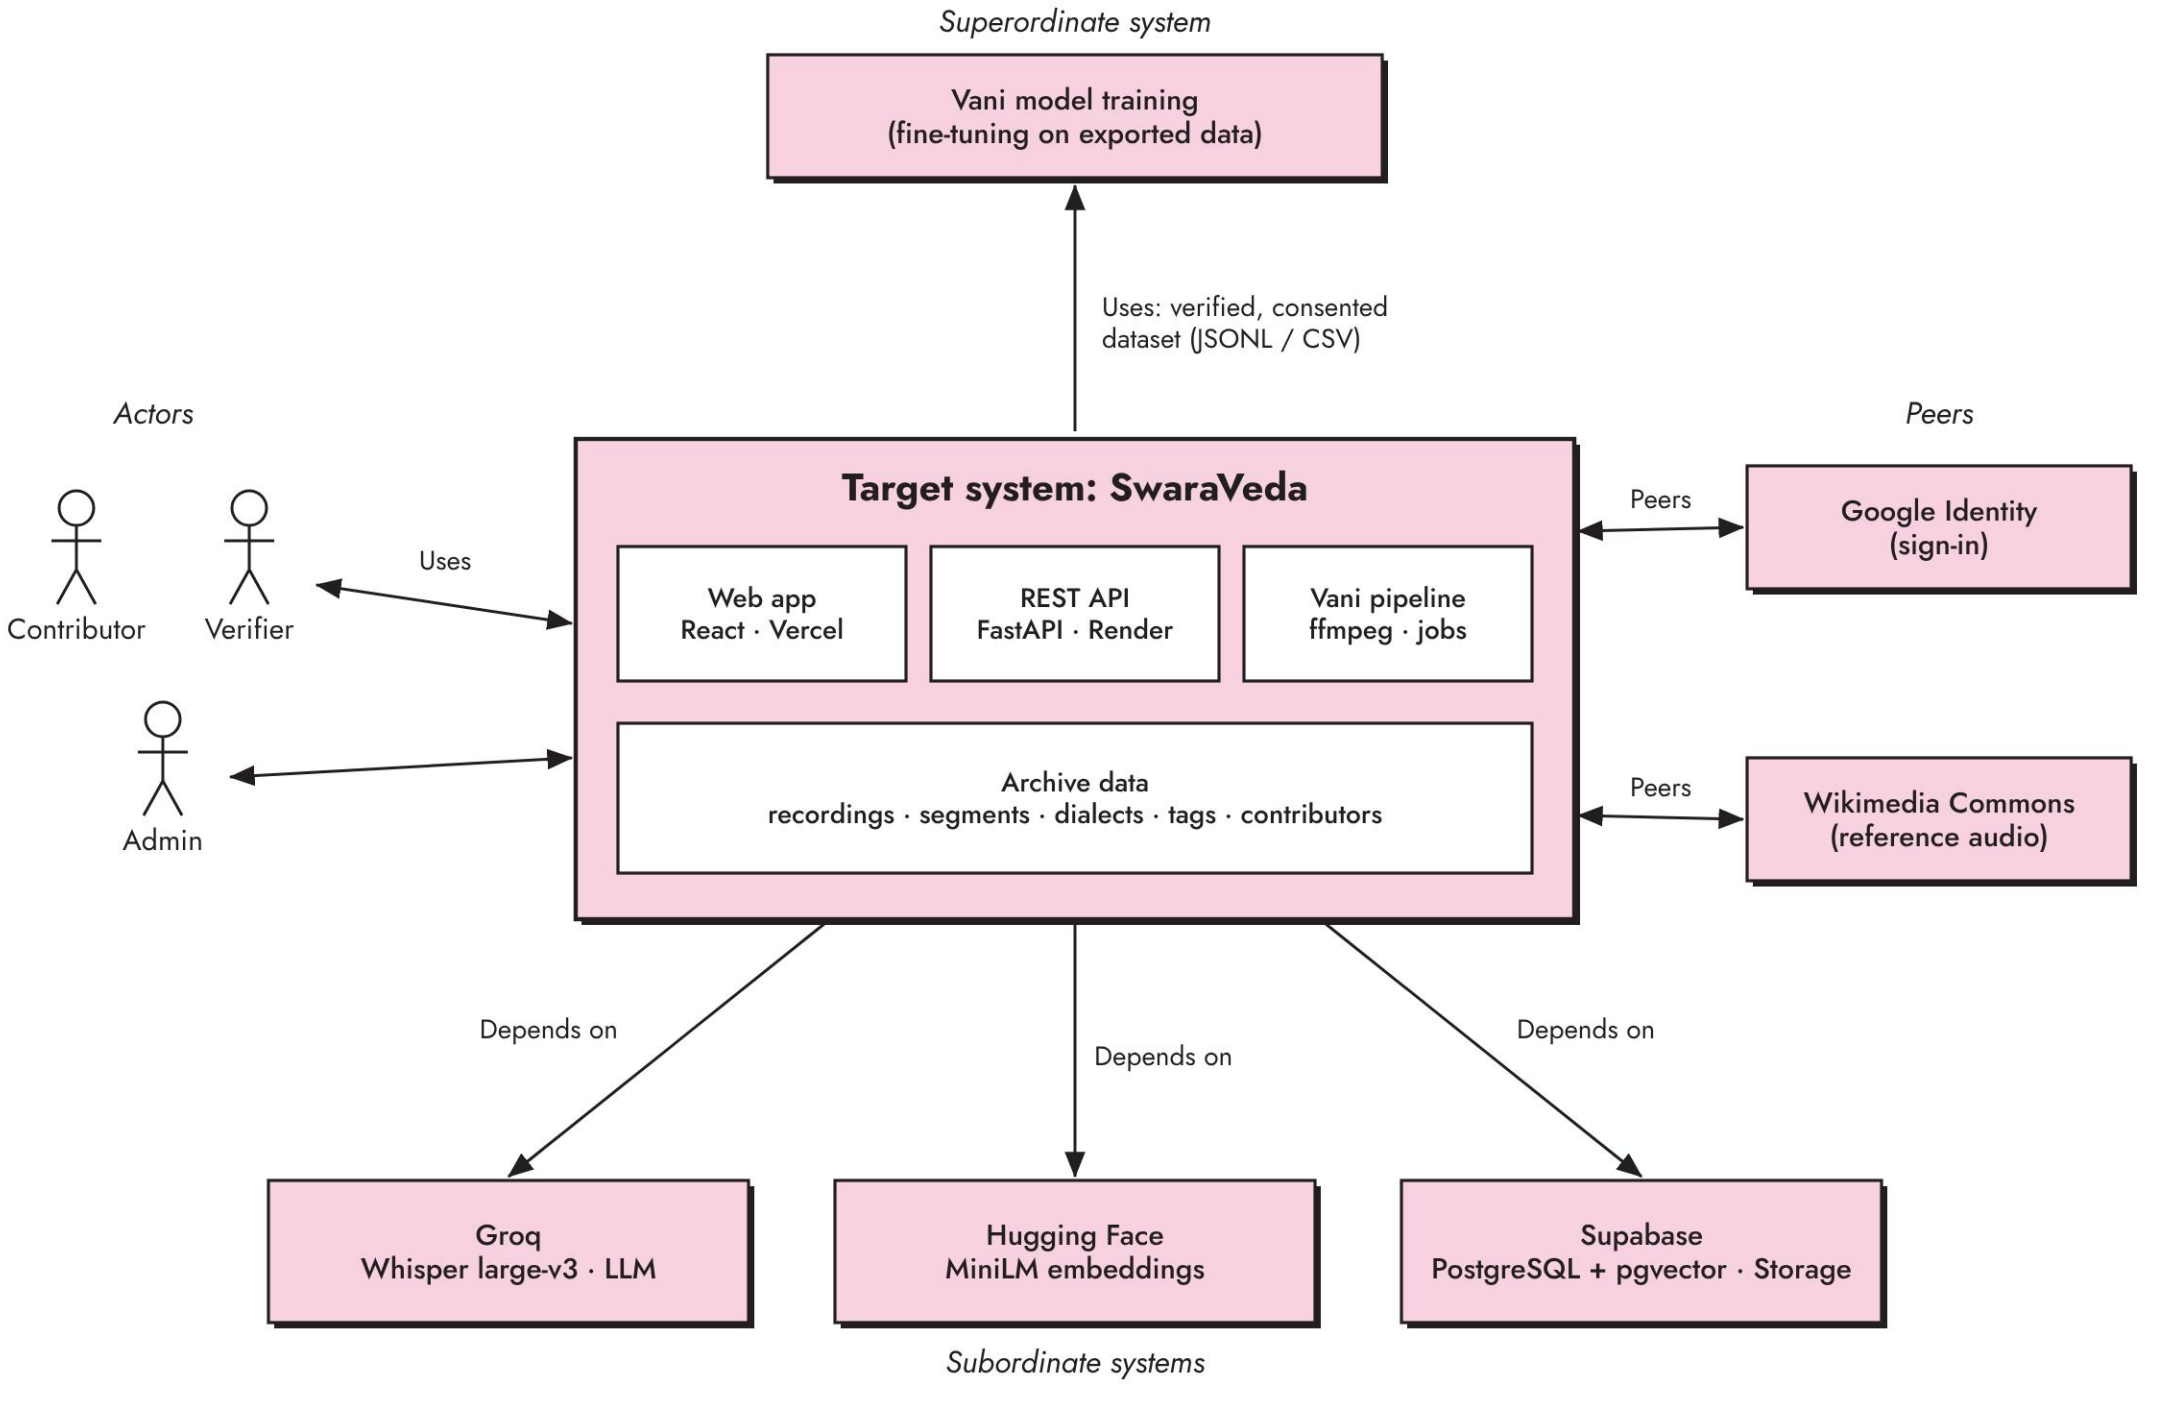

FIGURE 9.1

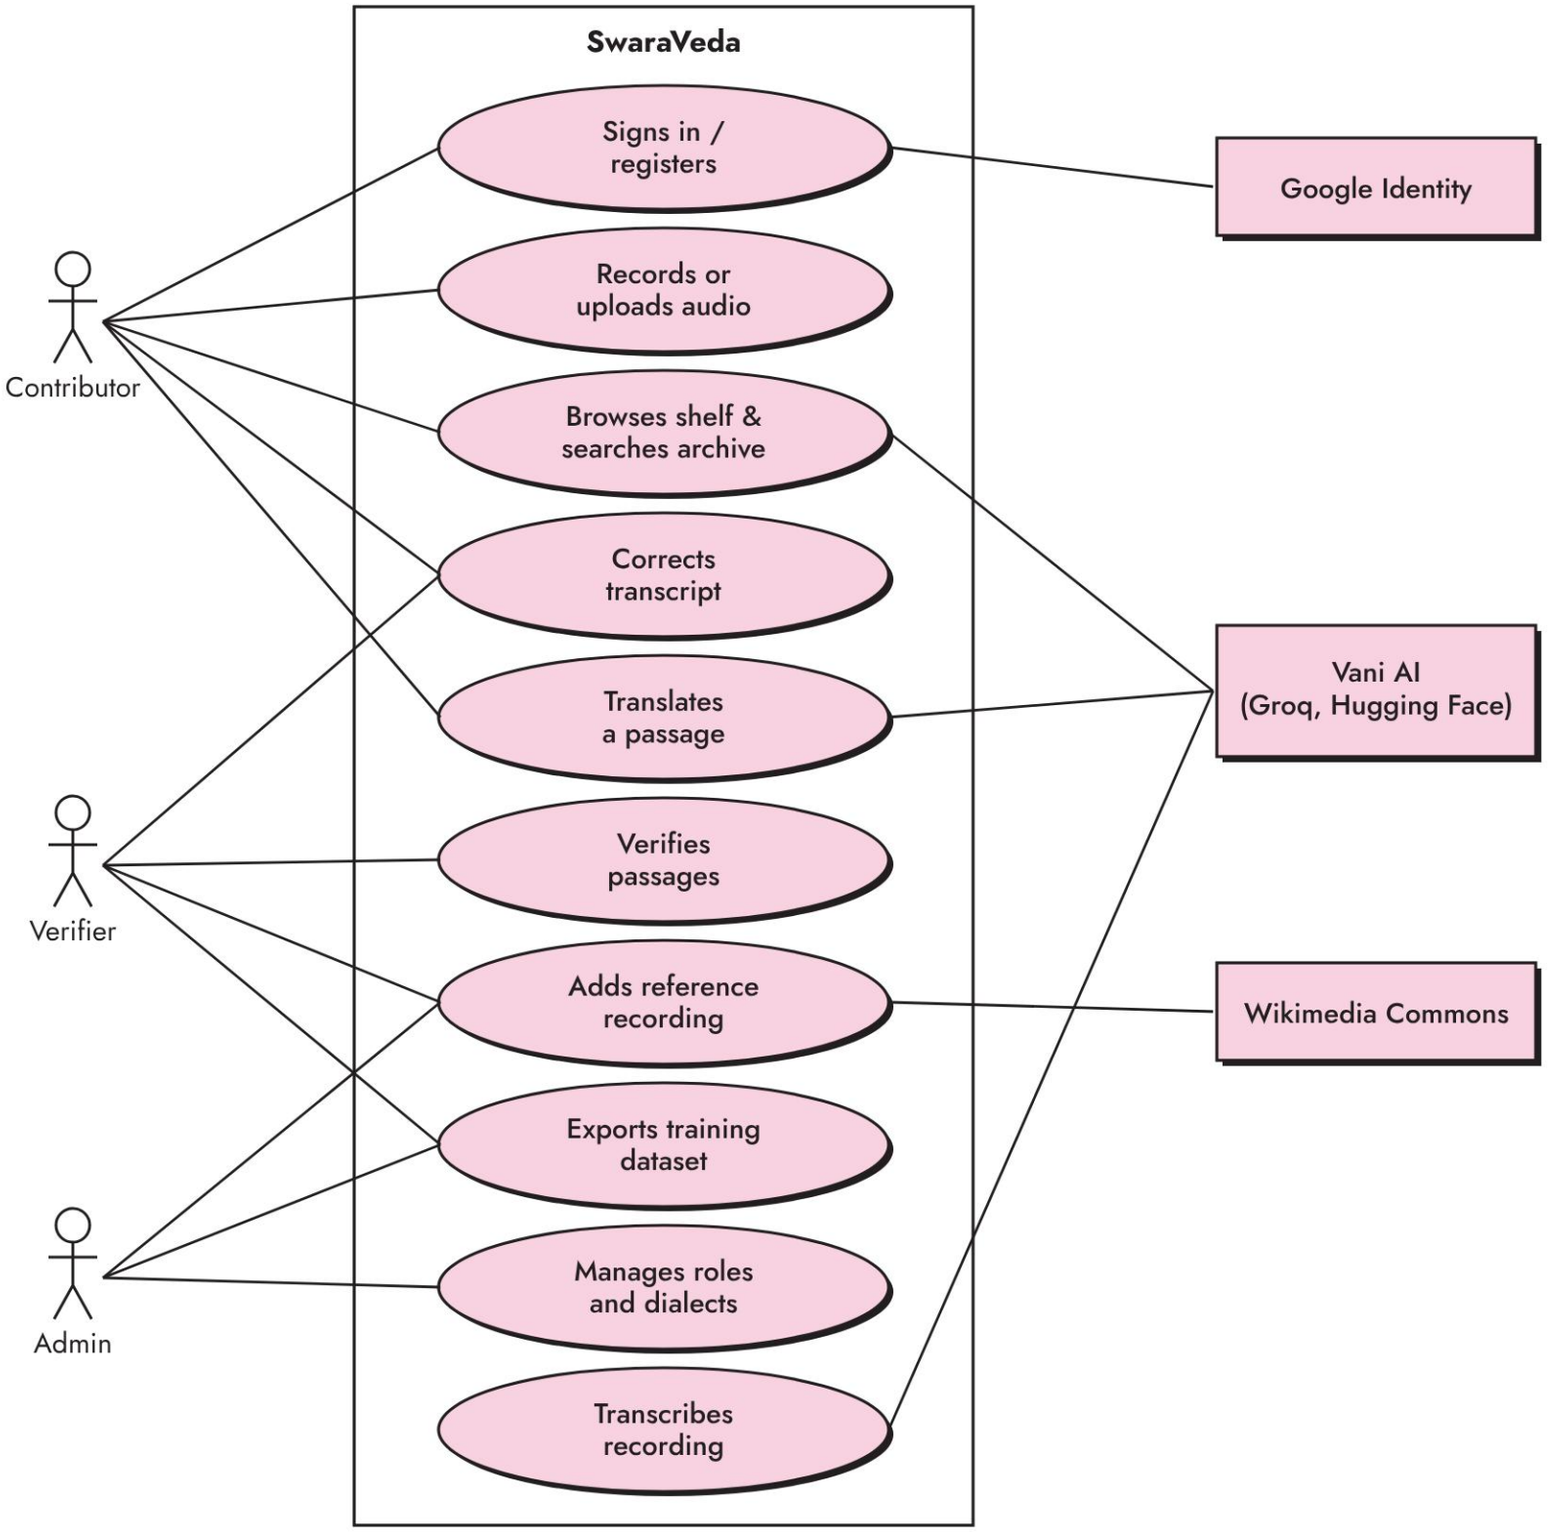

Architectural context diagram for SwaraVeda

Deployment: web app on Vercel, API on Render, data on Supabase; GitHub Actions tests every change.

FIGURE 5.2

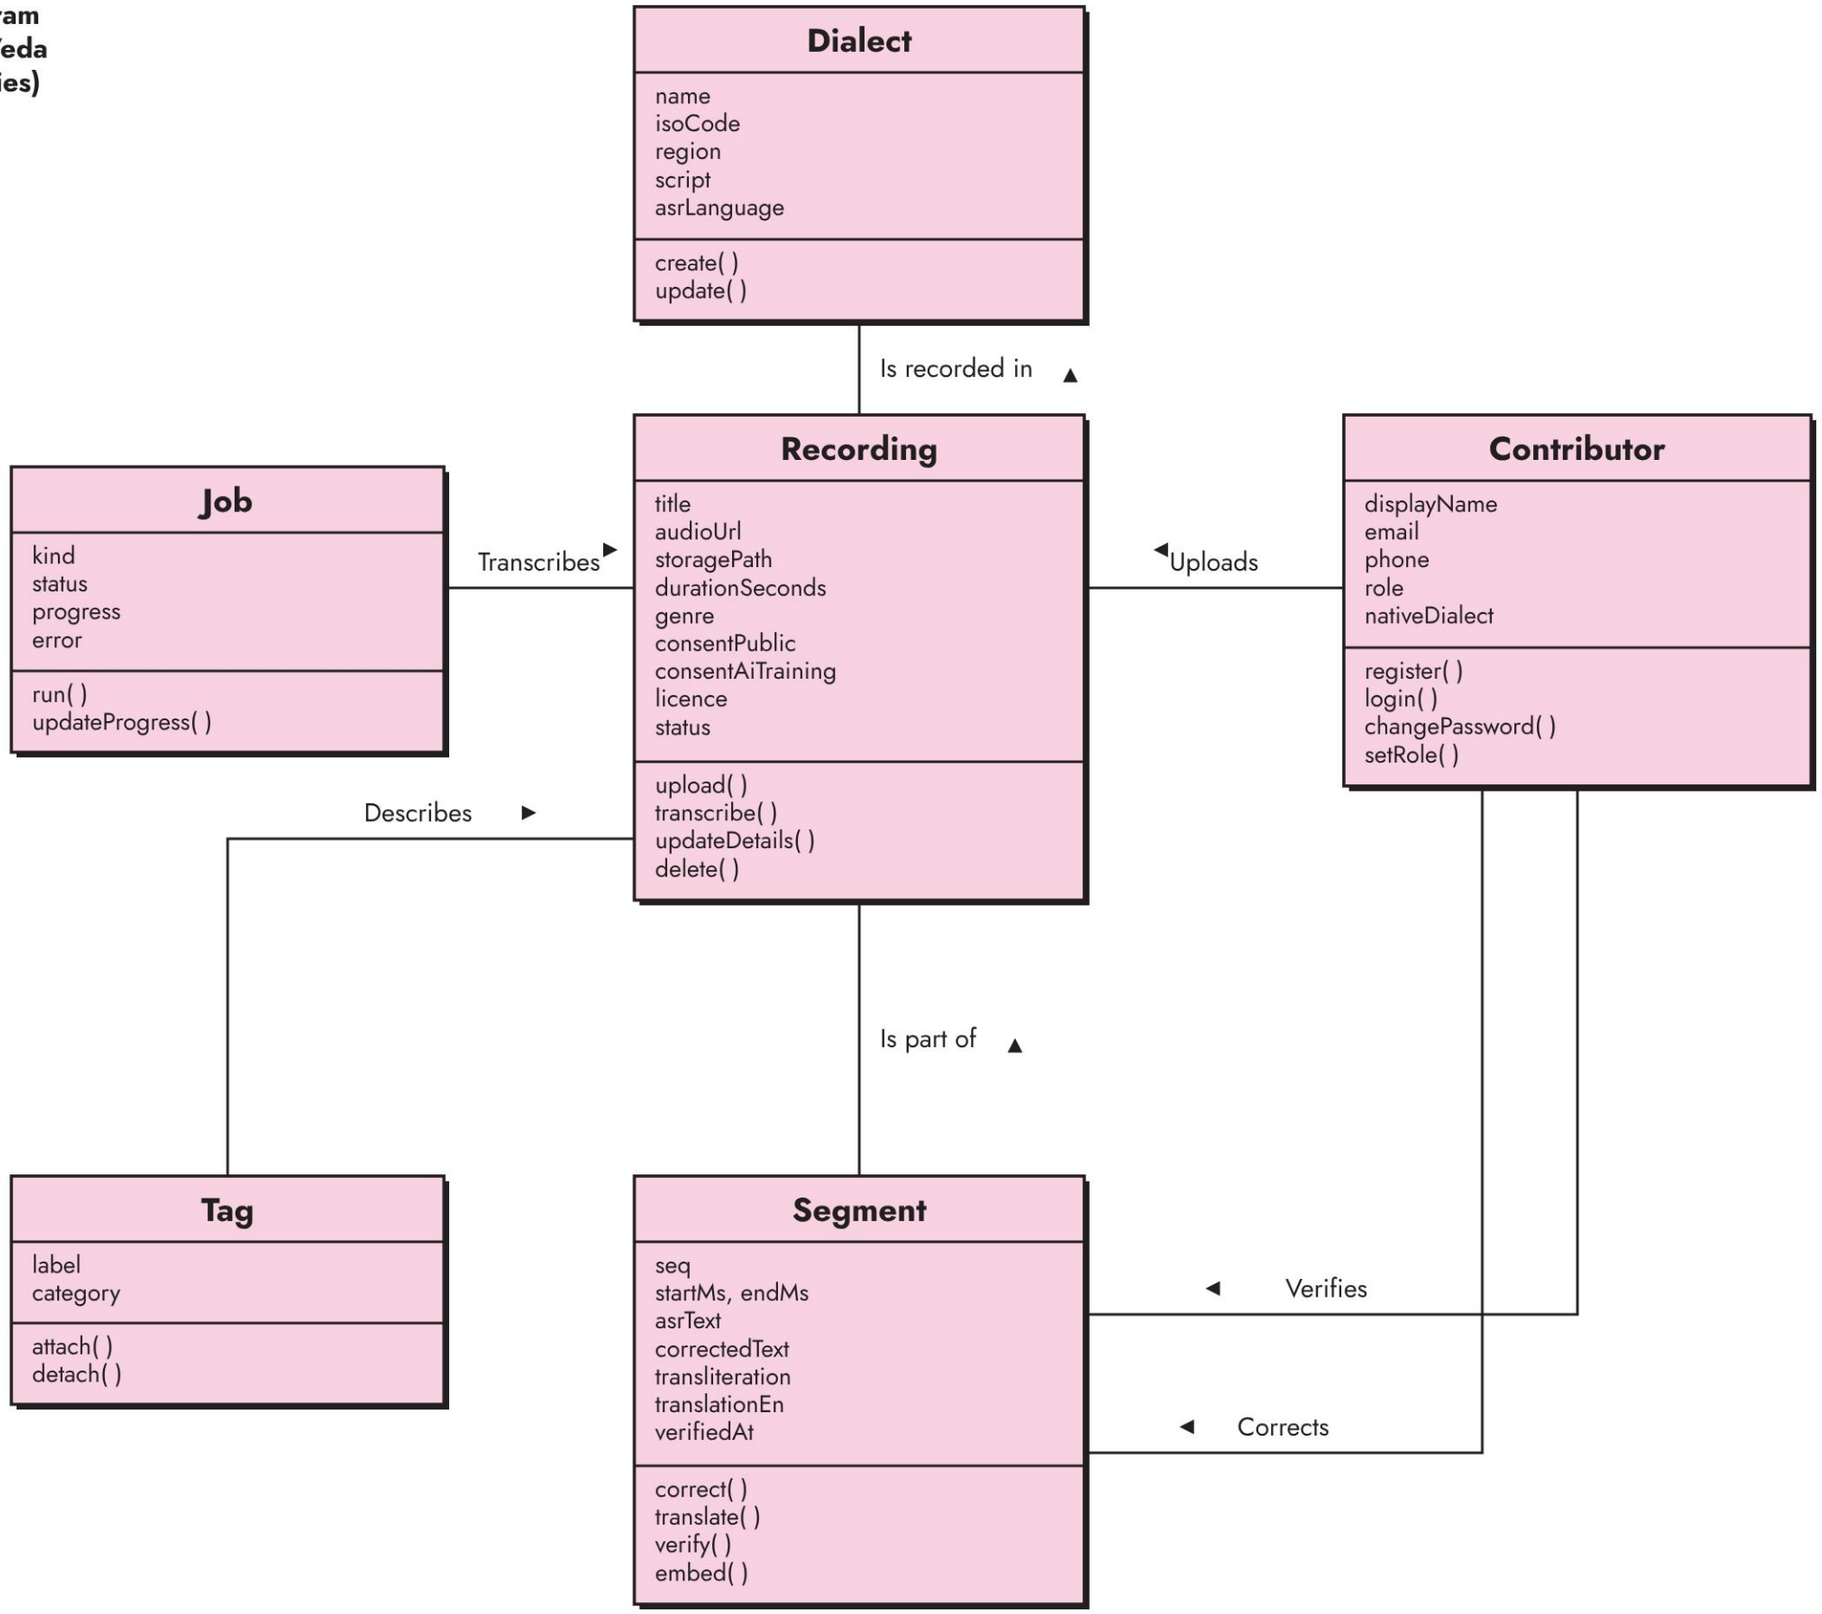

UML use case diagram for SwaraVeda

Transcribes recording is started by the system after an upload.

FIGURE 6.10

Class diagram for SwaraVeda (main entities)

Multiplicities: one dialect has many recordings; one recording has many segments, jobs and tags.
